Dear United States District Court for the District of Vermont:

I marketed Grade A milk in Federal Order 1 throughout the time period covered by the proposed NE Dairy Settlement.

My objection is based on the following reasons. First, the amount of the proposed settlement is \$50 million, or approximately 16 cents per hundredweight. This insignificant amount falls way short of the actual alleged damages caused by DFA/DMS's anticompetitive behavior. Second, and more important than the dollar amount, is the accountability for or exoneration from the behavior alleged in the suit that will only occur if the case goes to trial. As dairy farmers, we need to have confidence that our farmer-owned cooperatives truly act in our best interests. The information that would come out in a trial, or be buried in a settlement, is vital to this confidence. It should not be an option for the defendants to pay a relatively small settlement fee for the privilege of continuing business as usual. This is true regardless if I sign for my Class portion of the settlement damages. Please do not confuse the two issues as Counsel has tried to use my signing as proof that I am in favor of the proposed settlement. Nothing could be further from the truth.
